Business Operational Assessments

We provide customized Business Operational Assessments to assist our clients in creating success plans and attaining their goals with a business sale or new business purchase. The Assessments provide a current operational functioning, ongoing progress monitoring and stretch goal establishment.

Areas of Operational Assessments include:

- σ Business Systems
- σ Cash Flow and Budgeting
- σ Time Management
- σ Goal Setting
- σ Sales and Marketing Plans
- σ Manufacturing and Production

Applications available for the following:

- σ Preparing Business for Sale
 - Provide a current assessment to determine operational procedures to assist with determining value and price.
- σ Independent Assessment for Purchase
 - Conduct an independent assessment of the operational functioning and areas of opportunities of the business under consideration for purchase.
- σ Operational Assessment for Recent Purchase or Current Business
 - Provide a tailored operational assessment to meet the needs of each business and identified areas for growth opportunities.
